LINE 1. LAO CAI/YEN BAI PROBABLE TELEPHONE/TELEGRAPH LINE

A probable telephone/telegraph line extends southeastward from the Chinese border region near Lao Cai for a distance of approximately 75 nautical miles to the vicinity of Yen Bai.

The trace for this probable telephone/telegraph line is observed intermittently from 22-31N 105-01E, a point 2 nm east-northeast of Lao Cai, southeastward following the alignment of Route 4 to 22-22N 104-14E.

The trace continues southeastward to 22-14N 104-29E, following the general alignment of a new road under construction (See photo), and southeast to 22-11N 104-25E where it intersects Route 157.

The trace continues southeastward following the alignment of Route 157 to 21-46N 104-58E, then southwestward following Route 13 to the extent of photographic coverage at 21-44N 104-57E, a point 5 nm northeast of Yen Bai.

LINE 4. BAI DUC THON/DEMILITARIZED ZONE TELEPHONE/TELEGRAPH LINE UNDER CONSTRUCTION

The trace under construction for open wire line 4 is now observed intermittently from 18-06N 105-47E southeast to 17-12N 106-43E, a distance of 77 nautical miles. Three major segments measuring 27, 22, and 14 nautical miles are discernible. A 4 nm segment extends westward from line 4 at 17-38N 106-23E.

The alignment of this trace is generally parallel to an open wire along the Vinh/Dong Hoi rail line. The trace for line 4 is spaced 200 to 500 yards west of the rail line, possibly to avoid damage from air strikes directed at the rail line.

Poles with crossarms are discernible at periodic intervals along the trace.

LINE 5. NORTH VIETNAM ROUTE 1A TELEPHONE/TELEGRAPH LINE

Telephone/telegraph poles are observed approximately 3 nautical miles north-northwest of the Demilitarized Zone along Route 1A from 17-04N 107-00E to the extent of photographic coverage at 17-06N 106-58E, a distance of approximately 3 nautical miles.

A total of 74 poles are observed in 7 piles from UTM YD106918 to YD086943. Additional poles are on the ground on both sides and across Route 1A. All poles have round concrete bases and some have crossarms with varying numbers of insulators. Poles are observed intermittently paralleling Route 1A from 17-04N 107-00E to 17-06N 106-58E (See photo).

Poles for a new north/south line under construction are discernible west of Route 1A and immediately east of an existing telephone/telegraph line. This new line will probably join a line which is under construction paralleling the Vinh/Dong Hoi rail line.

Open wire line 3 is confirmed along Route 101 extending eastward to its junction with the line paralleling the Vinh/Dong Hoi rail line.
